

## FARM NEWS

By Tom Casaday, County Extension Chairman

**ARMY-WORMS**  
We have had several calls in the past week on Armyworms damaging newly planted crops of rice, wheat, and oats. Small worms are easy to control, but when they get big and fat, they are very difficult to kill. We recommend using Sevin spray or dust. Ten to 20 pounds of dust per acre will do an excellent job. Sevin is the only material cleared for use on any grazing crops that are to be fed to livestock.

**4-H Officers**  
My talented co-workers, Miss Virginia E. Sanders and Mr. Dan J. Presley, are busy this week organizing 4-H Clubs all over the county. Officers will be elected and projects will be selected. Everything is set in motion for an outstanding year of 4-H Club work in Coffee County. Approximately 100 boys and girls in elementary, junior and senior clubs will be organized. I know this will be a good year in 4-H Club work.

**SOIL FERTILITY**  
We had an excellent meeting a few days ago with the soil fertility lead-

ers in the county. Plans were made to stress soil testing and other ways to keep our good Coffee County soil highly productive. Professional agricultural agents attending with us were: Bill Ray and Dwight Kelley of FFA; E. L. Dean of the ASAS office; and Dan Presley and J. R. Speed of the Extension Service.

**MUCH INTEREST**  
Over a 100 men and women have enrolled in the brood-calf management course which begins Thursday night, October 13, at 7:00 at the Enterprise Junior College. We are happy to have over a 100 enrolled and we feel certain that those who attend each of the six Thursday night meetings will enjoy a practical, pleasant and profitable evening.

**SOYBEANS AND WHEAT**  
Quite a bit of interest several small ponds and in developing planting wheat to be grazed and combined and followed by soybeans. Some areas in fishing should be even better. The wiregrass have done ter up on Lowery's farm this in the past year near the Pike County line. He might even let you sit on the porch of his "Summertime" house and enjoy the fall breeze. The fall terrace program is under way in the small scale to see how it works out. We desperately need more income. The kick-off was made on one of Roy Barlow's work for people who have plenty of land.

**FUNDAMENTAL**  
Folks who want to improve their lawns, shrubbery, flower beds, pastures, crop production, gardens, orchards, and pecan trees are advised to soil test any time it is convenient. Almost always it is best to soil test in October so that if lime is needed it can be spread.

**Produce**  
Produce is being sold in the county. Plans were made to stress soil testing and other ways to keep our good Coffee County soil highly productive.

## COFFEE NEWS & CHAT

By Sara Hutchison

**COFFEE**  
The month of October is known as Beef Month, time to re-locate plants, in recognition of this occasion you may be broiling steaks in the oven. If so, keep at least 1/4 cup of water in the pan to prevent burning and smoking. This will also help the pan rack to be cleaned easier.

**IRONING**  
Homemakers are always interested in making ironing a little easier and faster. For example, by using a fabric softener in the final rinse water when washing will make clothes easier to iron. If you will learn to use long, light strokes, you will save energy. Remember, it is the heat that does the job and not the pressure.

**YARD IMPROVEMENT**  
A home visit was made last week to Mrs. Thomas Beaver's to help her re-

**Donaldson Named Leading Salesman In Alabama**  
Fred D. Donaldson, C. L. U., 1500 West Colte, Enterprise, Alabama, was named leading salesman in Alabama during August, according to John T. DeBardeleben, C. U., general manager of the company's Montgomery general office.

**These and other landowners** are taking advantage of ACP cost-share and SCS technical service to get their best land terraced. Most of them have already started their program and have learned first-hand how parallel terraces improve their land.

**Mulberry Heights FHA Girls Elect New Officers**  
The Mulberry Heights F. H. A. have elected their new officers.

**Maxine Wilson** will serve as president. Other officers are: Zeola Smith, Vice President; Marie J. Askew, Secretary; Gwendolyn Ellison, Financial Secretary; Arquilla Patton, Treasurer; Annie J. Ellard, Chaplain; Gladys Waters, Parliamentarian; Mary J. Kyles, Historian; Cynthia Daniels, Recreation Leader; and Elsie Phillips, Reporter. Mrs. Sylvia B. Terrell is the Home Economics teacher and F. H. A. advisor.

**Gross receipts from farming in the U. S. last year** totaled \$44.4 billion. This is about \$2 billion over 1964, mostly as a result of higher meat and animal prices.

## Turpentine Beetle Killing Pine Trees In Alabama

Auburn University entomologists are warning Alabama homeowners to be on the lookout for the black turpentine beetle which is killing pine trees in almost every town in the state. Both the beetle's larvae and adult stage attack and eventually kill pine trees by girdling them, says Frank McQueen, Extension

entomologist. The beetle's larvae, called grubs, are about the size of a pencil and are found in the bark of pine trees. They feed on the cambium, which is the tissue that transports food and water. If the tree is girdled, it will die.

McQueen says that homeowners should look for signs of infestation, such as small holes in the bark and sawdust. If they find these signs, they should call a professional pest control service.

McQueen says that homeowners should also be aware of the fact that the beetle can live for several years in the bark of a tree. Therefore, it is important to remove infested trees as soon as possible.

McQueen says that homeowners should also be aware of the fact that the beetle can live for several years in the bark of a tree. Therefore, it is important to remove infested trees as soon as possible.

## Jus' Ramblin'

By  
LUCILE K. WOODHAM  
McRAE

AN EDITORIAL in the Greensboro Watchman, a weekly newspaper published in Greensboro, Alabama, by Hammer Cobb, has been reprinted in a number of Alabama newspapers. The editorial by Cobb states some of the same things I have been saying for several weeks but is much smoother reading than I can write. There can be no quarrel with Editor Cobb. He is a southerner from every standpoint. He is liked and has the confidence of a majority of the people who read his newspaper. Greensboro is a small town with less population than Elba. His

newspaper is read by about the same number of people as this newspaper. He has fought for states rights and for the southern tradition. His editorials are masterpieces in most instances. He has his reader enemies as does all wide-awake newspapers. The Klan burned crosses in his yard when he wrote something they didn't like. Cobb's against Klan violence and displays. There is no question but that he is one of Alabama's better newspaper editors and publishers.

Cobb is not exactly anti-Wallace but he says he can't go along with his breaking the Alabama Constitution. His editorial has put many voters to thinking and especially those who have an open mind as to the political situation in Alabama.

Editor Cobb in part said: "This newspaper has been with George Wallace for eight years. It was with him back in the distressing days of 1958 when that incompetent, John Patterson, captured the imagination of so many intelligent people. And again, during the more delightful triumph of 1964, we were with Mr. Wallace. We are not turning against George Wallace for what he has done, at the very pinnacle of his career. We are merely saying that, like Caesar, he has become too powerful for us, and we feel that both common sense and the Constitution of Alabama call for his retirement, at least temporarily. George Wallace has made a creditable governor of Alabama. He is a vast improvement on his two predecessors, but we do not regard him as a great governor. He has not been forced to meet the simple test of parsimony. He has never been confronted with the lack of that chief characteristic of all politicians, money. He has had more money than any man in the history of our state. He has also borrowed vast sums of money for which our children may have to account.

"We regard George Wallace as honest. We would like to know a bit more, however, about the associations of his brothers and other lavish company. We would like to know more about this book deal in Alabama, which is robbing our children; we would like to know more familiar with the politics of influence around Montgomery which knowledgeable men have charged, and, most of all, we would like to read a new chapter of this liquor-agent business and to see whether, after all, these Wallace henchmen have profited. But what concerns us chiefly is the dangerous and unconstitutional drift which this state has taken in recent months, under the auspices of Mr. Wallace. Mr. Wallace is an earnest and effective campaigner, but he has not reached the point where he is using too much force and too much pressure. He has carried us to the point of danger. He offers abundant proof of the theory that, after all, those who wrote the Constitution of 1901, and expressly forbade a governor from succeeding himself, knew our people better than we thought they did. Suppose Patterson or Folsom, both with attractive wives, had done what Wallace now asks us to do? In other words, we look upon Mr. Wallace as a man who, in his desperate attempt to keep control of the state, has done the

**STEEPLE BEING ADDED TO NEW CHURCH** - Pictured is the steeple as it was being set in place on the beautiful new Church of Christ building which is under construction on the Elba-Troy Highway across from the new elementary school, also under construction and practically completed. The picture at left shows the steeple as it was being raised above the church building. The scene at right is as the steeple was being set in place.

When this building is completed, the Elba Church of Christ will move from its downtown location to the new place. The new building was necessary due to the constant expansion of the downtown district. The church was already experiencing cramped facilities, and there was no where to expand. The traffic condition was also becoming congested. This new spacious location will eliminate both these problems and provide more room for future expansion. The building site is composed of four lots with a high-way frontage of 400 feet. Ample parking will be provided down the west side of the building.

The building committee, composed of J. W. English, Gerald Tucker, Charles D. Gunter, Harris Winston and Minister Raymond Elliott, report that they expect to be in the new church building about November 1st. The present church building is being sold for commercial development.

"bathroom". This newspaper will carry a sample ballot next week explaining to voters how they can split their ticket if they should want to vote for some Republicans, some Democrats, or Independents. Be sure to study the ballot prior to the election November 8.

Alabama farmers planted 21 per cent less cotton this year than in 1964.

Mahlon Mooney and Wanda Tindol visited friends and relatives in Montgomery, Saturday.

Ben Mathis returned home, Monday to Springfield, Massachusetts, after visiting Mrs. P. G. Mathis and Mr. and Mrs. Harold English, of Elba.

I HAD A long distance telephone call a couple of weeks ago wanting to tell me some money to loan me some money to expand. I told them I had already expanded and was now in the process of further expansion without any financial assistance. But for second thought, I decided to find out more about this offer to loan me financial assistance and asked just what kind of loan were they willing to make. I asked them as to interest rates, etc. They kept going around that question and I kept asking. I haven't been told yet what the interest rate is. I told them I shop for my loans when it is necessary to get one and I just might be interested if they had something to offer that would be better than what I could get elsewhere. I still have an answer to that. I was then told they would send me some information in the mail, and they did. The very next day I received all this stuff about how wonderful it would be to have their financial assistance to "expand" and to enter new fields. But I still do not have any information as to what it would cost me to use their money.

OUR TWO white kittens are growing but the dogs are really working them over. So I put the cats in the house with a

**Sunday**

Moley C. Boutwell, 76, owner and founder of Boutwell Bakery died Sunday afternoon in a Montgomery hospital. Services were held Tuesday morning from the First Baptist Church of Elba with Dr. Charles Graham officiating. Burial was in Elba Evergreen Cemetery, Hayes Funeral Home of Elba directing.

Survivors include his widow, Mrs. Mary Estelle Boutwell, Elba; two sons, Moley J. Boutwell, Ridgefield, Washington, and Chief Petty Officer Max F. Boutwell, Great Lakes, Illinois; two daughters, Mrs. Stanley Prior, Elba, and Mrs. Paul R. Brunson, Birmingham; a sister, Mrs. Vida Mack, Opp; six brothers, Claude Boutwell, Opp, George Boutwell, Fort Walton Beach, Florida, Louie Boutwell, Tallahassee, Florida, Clarence Boutwell and O. L. Thaggard, both of Andalusia, and Jodie Thaggard, Pensacola, Florida, and 13 grandchildren.

**STEEPLE BEING ADDED TO NEW CHURCH** - Pictured is the steeple as it was being set in place on the beautiful new Church of Christ building which is under construction on the Elba-Troy Highway across from the new elementary school, also under construction and practically completed. The picture at left shows the steeple as it was being raised above the church building. The scene at right is as the steeple was being set in place.

When this building is completed, the Elba Church of Christ will move from its downtown location to the new place. The new building was necessary due to the constant expansion of the downtown district. The church was already experiencing cramped facilities, and there was no where to expand. The traffic condition was also becoming congested. This new spacious location will eliminate both these problems and provide more room for future expansion. The building site is composed of four lots with a high-way frontage of 400 feet. Ample parking will be provided down the west side of the building.

The building committee, composed of J. W. English, Gerald Tucker, Charles D. Gunter, Harris Winston and Minister Raymond Elliott, report that they expect to be in the new church building about November 1st. The present church building is being sold for commercial development.

"bathroom". This newspaper will carry a sample ballot next week explaining to voters how they can split their ticket if they should want to vote for some Republicans, some Democrats, or Independents. Be sure to study the ballot prior to the election November 8.

Alabama farmers planted 21 per cent less cotton this year than in 1964.

Mahlon Mooney and Wanda Tindol visited friends and relatives in Montgomery, Saturday.

Ben Mathis returned home, Monday to Springfield, Massachusetts, after visiting Mrs. P. G. Mathis and Mr. and Mrs. Harold English, of Elba.

I HAD A long distance telephone call a couple of weeks ago wanting to tell me some money to loan me some money to expand. I told them I had already expanded and was now in the process of further expansion without any financial assistance. But for second thought, I decided to find out more about this offer to loan me financial assistance and asked just what kind of loan were they willing to make. I asked them as to interest rates, etc. They kept going around that question and I kept asking. I haven't been told yet what the interest rate is. I told them I shop for my loans when it is necessary to get one and I just might be interested if they had something to offer that would be better than what I could get elsewhere. I still have an answer to that. I was then told they would send me some information in the mail, and they did. The very next day I received all this stuff about how wonderful it would be to have their financial assistance to "expand" and to enter new fields. But I still do not have any information as to what it would cost me to use their money.

X SORRY X

The first AAA-Bonanza Mobile Homes' franchises are gone. If you wait much longer the Dathan area, which is proving to be a profitable home market, may not be available either. Proof of the market potential is that one home in five sold in the United States last year was a mobile home. Your profit margin or return on invested capital is considerably higher than many other businesses. AAA Enterprises provides a full package. You get complete management and sales training, sales supervision, advertising assistance and support, and a quality inventory consisting of top sellers in the mobile home industry. AAA Enterprises' franchises offer security and financial independence. If you want more details on how AAA Enterprises can help you own your own business with an investment of \$10,000 to \$15,000, write or call Byron Williams, AAA Enterprises, 3390 Peachtree Road, N. E., Atlanta, Georgia. Telephone 404 261-5766.
